For Students Entering AY 2013-14

In addition to departmental requirements, candidates for graduate degrees must fulfill University requirements described in the “Graduate Education” section of the UCSB General Catalog.

The M.A. in Anthropology, Integrative Anthropological Sciences (IAS) Specialization, is viewed as an integral part of preparation for the doctorate; students apply to both programs. Students intending to pursue only the M.A. degree with a specialization in Integrative Anthropological Sciences (IAS) will not be accepted into the graduate program.

Students must complete a minimum of **36 units** for the master’s degree, 24 of which must be from the graduate series in Anthropology. Students in the M.A./Ph.D. program must first complete all of the M.A. requirements before continuing toward the doctorate. The time-to-degree for the M.A. is two years.

These courses must be passed with a grade of B or better, with the exception of the Proseminar Requirements which must be passed satisfactorily.

MASTER'S COMMITTEE AND COMPETENCY CONTRACT

By the end of the winter quarter of the first year, students must form a valid master's committee, and file their M.A. Committee form with the Graduate Program Assistant. Committees must consist of at least three ladder faculty members, two of whom (including the chair) must be from the department. The chair of the committee must be from the IAS subfield.

M.A. Committee: Chair: _____

Member: _____

Member: _____

Member: _____

The M.A. committee will assist the student with determining a specific course of study for his or her contract, which should be finalized and approved by winter quarter, but not later than the end of the spring quarter of the first year.

RESEARCH PROJECT/PAPER

At the beginning of the third quarter of study, the student selects, with the approval of his or her advisor, an empirical research project to be conducted over the following four quarters, and is encouraged to develop an apprenticeship relationship with a faculty member (who will typically be or become the student's advisor) on this project. The advisor directs the research project, and the student is expected to write up the project into an article-length research paper that demonstrates analytical abilities and writing skills, in the form suitable for submission to a professional journal. The student presents the project during the spring quarter of the second year, and the paper is due within 90 days of the successful completion of the comprehensive examination. The paper must be approved by the student's M.A. committee.

CAPSTONE REQUIREMENT – COMPREHENSIVE EXAM

Through a comprehensive examination, the student demonstrates knowledge of general anthropology, the behavioral, biological, and social sciences, and method and theory in biosocial anthropology. The comprehensive exam for the Integrative Anthropological Sciences (IAS) specialization is typically administered in Spring quarter of the second year.

Exam Scores: **PhD Pass** (required to continue to the Ph.D.), **MA Pass** (a terminal MA will be awarded), or **Fail**. Students have one regular quarter to revise comprehensive exams which receive a Fail score (for Spring exam, deadline is the end of following Fall quarter.) The exact timeline and required revisions will be indicated in a formal memo. If the deadline is not met, the student will be recommended to the Graduate Dean for academic probation. If acceptable revisions are not completed after one quarter on academic probation, a Fail score will be issued and the student will be recommended for dismissal.

COMPREHENSIVE EXAM DATE: _____ **SCORE:** _____

COMMENTS:

CONTINUATION TO THE Ph.D.

Although students are admitted into the M.A./Ph.D. program, continuation to the Ph.D. is by no means automatic upon completion of the M.A. Continuation is highly competitive and subject to the student's academic performance being deemed excellent by all standards that the department uses to assess degree progress such as: exams, grades, coursework, timely progress toward the degree, and teaching (as evidenced by student evaluations and supervisor's assessments). Students must demonstrate an ability to work independently and to make innovative and original contributions to the critical literature of the student's chosen field.
