

University of California Santa Barbara  
DEPARTMENT OF ANTHROPOLOGY  
ARCHAEOLOGY SPECIALIZATION

M.A./PH.D. DEGREE PROGRAM GUIDELINES  
2010-11

The 2010-11 Department of Anthropology *M.A./Ph.D. Degree Program Guidelines* is designed to be used in conjunction with the Graduate Division's *Graduate Handbook*\* and the Department of Anthropology's Graduate Program General Guidelines for detailed requirements, policies, and procedures specific to the University and the Department of Anthropology.

Every attempt has been made to ensure that the information in this handbook is current and correct as of September 2010. It is each student's responsibility to confirm the deadlines, requirements and paperwork that apply to his/her degree/credential program at each step in the graduate school process.

It is important to meet, on a regular basis, with your own faculty advisor. Other key persons to consult as necessary are your Program Assistants, the Faculty Graduate Advisor, Chair, and/or the Graduate Division.

\* *Graduate Division's Graduate Handbook is available on-line at*  
<http://www.graddiv.ucsb.edu/handbook/>

## M.A./PH.D. PROGRAM IN ANTHROPOLOGY

### SPECIALIZATION IN ARCHAEOLOGY DEGREE PROGRAM GUIDELINES

Revised: Fall 2010

#### **OVERVIEW**

The M.A./Ph.D. program in archaeology at the University of California at Santa Barbara is designed to provide each student with: (1) a comprehensive knowledge of general anthropology, including ethnology, archaeology, and physical anthropology; (2) a solid grounding in archaeological theory and research design, (3) professional objectives, (4) the practical skills necessary for archaeological fieldwork, laboratory work, and data analysis; (5) oral and writing skills necessary for professional communication.

At the time each student enters the program, he or she is assigned a temporary faculty advisor to act until the M.A. Committee is formed at the end of winter quarter of the first year. A required series of core courses provides basic training in general anthropology, archaeological theory, research design and analytical skills. Through a written contract, the student and the Committee formalize an individual program of study through which the student gains the special expertise necessary to accomplish his or her professional goals. This contract generally includes course work, directed reading, and independent study.

Courses are normally taken for two years in the M.A. program, and three years in the M.A./Ph.D. or Ph.D. program, with a student taking three courses per quarter (the third course will be the TA Practicum, Anth 501, if the student is serving as a Teaching Assistant). A total of three core courses are required for the M.A. degree; remaining courses are specified in the individual contracts. In the spring quarter of the second year of study, the student takes a qualifying comprehensive examination that focuses on general prehistory and method and theory in archaeology. A satisfactory performance in the above requirements is necessary to attain the M.A. degree.

A research paper is due in fall quarter of the third year. Upon completion of all of the requirements for the M.A. degree, the research paper, and one additional core course, the student writes the dissertation proposal. Once this proposal has been approved by the Ph.D. committee and the student completes an oral defense of the proposal the student is advanced to candidacy.

Once candidacy is achieved, the student begins work on the dissertation which, when completed, must be approved by the Ph.D. committee. After the dissertation is approved the student is awarded the Ph.D. degree. Presentation of the dissertation research in a public colloquium is highly desirable.

Time to Degree: Students in the Graduate Program of the Department of Anthropology, with the exception of the Terminal North American Archaeology MA Degree program, are expected to complete the MA with the intention of advancing to PhD candidacy and completing the PhD degree. All students are expected to make satisfactory progress in the program to reach these Time-To-Degree milestones: MA (4 years), Advance to Candidacy (4 years if admitted with an MA, 5 years without), complete the PhD (7 years if admitted with an MA, 8 years without).

## THE MASTER OF ARTS (M.A.) PROGRAM

The graduate program in Anthropology is a combined M.A./Ph.D. program, with the Ph.D. degree as the ultimate objective. Most students entering the department will work first towards their M.A. degree in Anthropology. Students who already have an M.A. degree in Anthropology will work out with their advisory Committee a specific program for advancement towards Ph.D. candidacy. A terminal M.A. with a specialization in North American Archaeology is also available.

The requirements for the M.A. degree are as follows:

- 1) Formation of an M.A. Advisory Committee, regular discussion of progress with Committee members, and submission of a contract specifying the student's program of study and research leading to the Ph.D..
- 2) At least 36 units of course work. (It is not unusual for students to take as many as 72 units in the course of the M.A. program.)
  - Of these 36 units, there is a minimum of 24 graduate units (excluding such courses as Anth 501, 597, 598, and 599).
  - A maximum of 4 units of 596 (directed reading and research) may be counted as part of the 24 graduate units.
  - Students may take upper division undergraduate courses. Units from lower division undergraduate courses will NOT count towards degree.
  - Students are required to take three core courses, plus the faculty proseminar (Anth 277) and spring quarter proseminar (Anth 232).
  - Students are strongly encouraged to develop good breadth in other subfields of Anthropology by taking courses in those areas.
- 3) In the spring quarter of the second year, students must pass a comprehensive examination. Failure to comply with this or any other requirement set forth in these guidelines may result in the student being asked to leave the program. Requests to defer or delay requirements due to extraordinary circumstances must be submitted in writing to the department for consideration.
- 4) The student must clear up any incomplete grades before the M.A. can be awarded.
- 5) Students must be registered the quarter they receive the M.A..
- 6) Students admitted to the terminal M.A. program follow the same requirements with the following exceptions:
  - a) 32 units minimum of coursework are required.
  - b) A thesis is written and submitted to Graduate Division after it has been approved by the M.A. Committee.

The M.A. program in Archaeology is divided into two years. The requirements for these two years are as follows:

During the first year the student must:

- 1) Form an M.A. committee. During winter quarter of the first year the student will ask three UC ladder faculty members to serve on his or her master's committee. This should consist of three faculty members from the Department of Anthropology; the chair should belong to the archaeology subfield, but faculty from other subfields may be members of the committee if they are appropriate to the student's interests. See also Graduate Division regulations regarding committee formation:  
<http://www.graddiv.ucsb.edu/handbook/mastersdegreerequirements.html#committee>

A. Committee members are mentors, in professional and scholarly matters, and are expected to guide the student throughout his or her graduate education. Committee responsibilities include general advising, as well as the more specific work of evaluating students' annual reports, self-assessments, contracts, MA papers, research papers, funding and dissertation proposals, and dissertations. The committee's purpose is to assess the students' special needs, strengths, and weaknesses and to assist in developing the best program possible. Committee members are expected to help students prepare for doctoral advancement and to participate in the oral exam that is required for advancement. Students are expected to work closely with their committees throughout their graduate careers and to keep their members informed about activities and plans. This information is necessary if the committees are to represent the students' interests in the department and to provide advice.

B. Once the committee members have been contacted and have agreed to serve, the student will complete the department's M.A. Committee form which provides a written record of committee membership. The form is submitted to the Graduate Program Assistant.

*File the department M.A. Committee Form with the  
Graduate Program Assistant by the end of Winter quarter.*

C. If students decide to change their committees they must have the consent of the new member, inform all members of the current committee, and secure the approval of the department chair. When changing M.A. committee member(s), the student needs to fill out the departmental Change of Committee Member form and file it with the Graduate Program Assistant. Changing a Ph.D. committee member(s) requires a Graduate Division Change of Ph.D. Committee form.

- 2) Draw up a contract, in consultation with the committee, which is due at the end of spring quarter of the first year.

By the end of winter quarter of the first year each student will arrange an assessment meeting with all the members of the committee, the purpose being to discuss the individual's background qualifications and interests and to help set up a suitable program of study and research. The student will prepare for the assessment interview by writing a brief summary of his or her background in anthropology and presenting a draft of the contract to the committee. The guidelines for writing the Ph.D. Competency Contract can be found below and a sample contract can be found on the anthropology website.

- 3) Take the Fall Faculty Proseminar (Anth 277).
- 4) Take the Spring quarter Proseminar (Anth 232)
- 5) Take the core courses.

During the second year the student must:

- 1) Take the core courses.
- 2) Take the comprehensive examination in the spring quarter.
- 3) Take the Spring quarter Proseminar.

Faculty Proseminar:

This course is offered every fall quarter and is listed as Anth 277. Students need to register for the four unit class as Satisfactory/Unsatisfactory. The department expects all first year graduate students to enroll in this class in addition to your regular course load. The purpose of the course is to expose students to the theoretical interests and the current research being conducted by our department faculty as well as affiliated faculty. Students are required to complete the readings for each faculty lecture and attend each afternoon presentation on the designated class day. The faculty proseminar is a requirement for the M.A. degree in Archaeology.

Spring Quarter Proseminar:

This course is offered every year and is listed as Anth 232. Students need to register for this variable unit class as Satisfactory/Unsatisfactory. The department expects all first and second year graduate students to enroll in this class in addition to your regular course load. The aims are to expose all of first and second year students to examples of current research in the different subfields of anthropology, to provide opportunities to meet with eminent scholars from other institutions, and to provide a forum for collegial interactions among faculty members and graduate students. Students are required to complete the readings for each lecturer and attend both the roundtable discussions and presentations.

**Core Courses**

Three core courses are to be taken during the first two years; they must be taken for letter grades. These are the following:

- Anth 201A. Classical Archaeological Theory
- Anth 201B. Contemporary Archaeological Theory
- Anth 245A. Methods of Quantitative Analysis

At the end of the second year the Archaeology faculty reviews each student, taking into account academic performance, professional promise, and performance on the comprehensive examination. The faculty then recommends one of the following:

- Award the M.A. with an invitation to proceed to the Ph.D..
- Award a terminal M.A..
- Not award the M.A..

### Comprehensive Examination

The comprehensive exam is administered in spring quarter of your second year. Over a two week period, students will write two article-length papers. The paper topics are chosen by the faculty for each individual student. Topics are chosen from two of the three areas: 1) hunter-gatherer societies, 2) middle-range societies, and 3) complex societies.

Exam Scores, MA/PhD Track: **Conditional Pass, High Pass, Pass, or Fail.** Students have one regular quarter to revise comprehensive exams which receive a Conditional Pass score (for Spring exam, deadline is end of following Fall quarter.) If the deadline is not met, the student will be recommended to the Graduate Dean for academic probation. If a passing score has not been awarded by the end of the Spring quarter a year after initial comps, a Fail grade will be issued. Students failing comprehensive exams will not be awarded the MA or invited to advance to PhD candidacy and will be recommended for dismissal by the Graduate Dean.

Exam Scores, Terminal MA Track: **Conditional MA Pass, MA Terminal Pass, or Fail.** Students have one regular quarter to revise comprehensive exams which receive a Conditional MA Pass score (for Spring exam, deadline is end of following Fall quarter.) If the deadline is not met, the student will be recommended to the Graduate Dean for academic probation. If a passing score has not been awarded by the end of the Spring quarter a year after initial comps, a Fail grade will be issued. Students failing comprehensive exams will not be awarded the MA and will be recommended for dismissal by the Graduate Dean.

Students receiving "conditional" grades may be asked to complete additional work in order to achieve a passing grade on the examination.

### **TERMINAL M.A. PROGRAM**

A graduate student in the terminal M.A. program must satisfy all the above requirements, and in addition write a M.A. thesis, normally accomplished during the third year of residency.

## THE DOCTORAL (PHD) PROGRAM

A student who has completed the M.A. degree and is invited to continue on to the Ph.D. program will form his/her Ph.D. Committee and work towards advancement to Ph.D. candidacy. Students are expected to take a full course load their third year in order to fulfill contract requirements. The Department of Anthropology requires students to advance to candidacy by the end of their fifth year in the graduate program. Students formally advance to doctoral candidacy upon the committee's approval of research papers and dissertation proposal and successful completion of the oral defense. Students not advanced to candidacy by the end of the fifth year may be subject to academic probation and department monitoring.

**IMPORTANT:** Although a student is allowed five years from entering the graduate program to advance to candidacy (4 years for those who entered with an MA/MS), the faculty expects a student to complete requirements for advancing within three years, and toward the end of the third year a student should be submitting proposals for dissertation research funding. The 5-year normative time frame for advancing to candidacy provides time in the event that a student is unable to secure research funding in the third year. However, a student's timely progress is taken very seriously, and is a very important aspect of department decisions regarding TA-ships and other forms of university financial aid.

Students must have all requirements for their advancement to candidacy completed and approved by their committee before carrying out the project contained in the Ph.D. proposal. Once advanced, students may pursue independent studies in the department pending departure for the field.

The requirements for advancement to Ph.D. candidacy are as follows:

- 1) Form the Ph.D. Committee, which may have a membership different from the M.A. committee. As in the case of the M.A. Committee, three members must be Anthropology Department faculty, and the chair must be a member of the archaeology subfield. In addition, committee members may be included from other departments, if the student's interests warrant; these members are in addition to the three Anthropology faculty.

*File the Ph.D. Form I with the Graduate Division  
File the Conflict of Interest Form*

- 2) Continue to take courses until all contract requirements are filled.
- 3) Take the core course in professionalism, Anth 239A.
- 4) Complete a research paper. This is an article-length paper that demonstrates skills in problem formulation, data analysis, and scientific argument, as well as literary competence. All members of the Ph.D. Committee must approve and sign the paper.

*File the Research Paper Approval form with the Graduate Program Assistant*

- 5) Write a dissertation proposal, specifying the intended topic, theoretical framework, geographic area of fieldwork, and methods of research leading to the Ph.D. dissertation. The proposal

should take the form of an NSF Dissertation Improvement Grant to fund the student's dissertation research. All members of the Ph.D. Committee must approve and sign the proposal.

*File the Dissertation Proposal Approval form with the Graduate Program Assistant*

- 6) Oral defense of the dissertation proposal. An oral defense of the proposal is required of all students. The defense is open to other students and faculty. The candidate is expected to present an oral summary of her or his proposal and to answer questions posed by the committee and by others in attendance.
- 7) Graduate Division requires the student be registered for three consecutive quarters prior to the quarter of taking the examination and be registered the quarter the student intends to advance to doctoral candidacy. Students' spring quarter registration protects their student status over the summer until fall quarter (i.e., students taking their qualifying exams during the summer do not have to pay summer fees).

After fulfilling all specified requirements, the student is advanced to candidacy.

*File the Ph.D. Form II with the Graduate Division*

**Only after a student is advanced to candidacy can he or she register for Anth 599: Dissertation Research and Preparation.**

Requirements for the Ph.D. degree:

- 1) Fieldwork of at least three academic quarters' duration. Ideally students receive funding for their dissertation research in time to begin fieldwork during their fourth year, but it often takes longer than that, and if they are unable to begin field research until their fifth year they are still on a reasonable schedule. A student can expect to spend a year or a year and a half in the field, and it will take at least a year to write the dissertation after completing the field research. The Department of Anthropology sets a deadline of eight years to complete the doctorate.
- 2) A dissertation (normally based on field research).

When the dissertation has been completed and submitted, the student's Committee may either approve it or suggest further revisions. The Department does not require that students take an oral exam on the dissertation or that they engage in an oral defense for the Archaeology and Sociocultural specializations, but the University requires that a form be filed that waives the orals. The student needs to file the Graduate Division's Ph.D. Form III-A, Waiver of Final Exam for the Degree of Doctor of Philosophy. Students are advised to obtain committee signatures on this form at the same time committee members are signing the dissertation pages. When all the members of the Committee have approved and signed the dissertation, the Ph.D. degree is awarded.

*File the Ph.D. Form IIIA, "Waiver of the Final Exam..." as well as other forms required by the Graduate Division*

## **GUIDELINES FOR PREPARATION OF COMPETENCY CONTRACT IN ARCHAEOLOGY**

Your contract should document your past and intended coursework and other academic activities that contribute to providing adequate breadth in anthropology, archaeology and your chosen research specialization. It may include courses taken as an undergraduate as well as courses you have taken or intend to take as a graduate student, whether in this or another department. It may also include various kinds of experiences particularly relevant to your education, such as a research experience that provides the chance to develop an expertise.

Your Contract should include the following elements:

- I. **ANTHROPOLOGY BREADTH:** A list of upper division and graduate courses in anthropology and related disciplines (e.g., sociology, biology, linguistics) that provide breadth of knowledge in branches of anthropology other than archaeology. These should be categorized as follows:
  - A. Cultural Anthropology
  - B. Biological Anthropology
  - C. Other anthropological subdisciplines such as Linguistics
  - D. Other disciplines
  
- II. **ARCHAEOLOGY BREADTH:** A list of upper division and graduate archaeology courses that provide breadth of knowledge in the subdiscipline. Core courses or other courses or experiences that have exempted you from certain core courses should also be listed. All should be categorized as follows:
  - A. General method and theory, including history of the discipline
  - B. Field and lab techniques, including collections analytical approaches
  - C. Quantitative analysis
  - D. Area prehistory
  
- III. **SPECIALIZATIONS:** A list of courses and other academic activities that provide training and experience in your specialization(s). In addition to courses taken in our department, these might include specialized field schools, courses in other disciplines such as geography or biology, and relevant research experiences. These should be listed under as many of the following categories as are applicable, and the specialization(s) should be indicated under "Area of Emphasis":
  - A. Area specialization(s), e.g., Andean region
  - B. Topical specialization(s), e.g., complex societies
  - C. Technical specialization, e.g., human osteological analysis
  - D. Language competency, e.g., Spanish for those working in Spanish-speaking countries
  
- IV. **TEACHING EXPERIENCE:** If you are, were, or plan to be a TA, indicate TAship under the "Requirements Satisfied By" column. Some of you may obtain teaching experience by other means.

- V. RESEARCH PAPER: Give a tentative or actual title of the paper in the "Met By" column.
- VI. DISSERTATION TOPIC: Indicate at least a tentative topic, even if you are still unsure of the direction of your specialization.

SIGNATURES: The contract is a two page form. It provides spaces for the signatures of you, your advisor, and two other archaeology faculty you have selected to review your contract.

*File the original Contract with the Graduate Program Assistant and provide a copy for each committee member.*

### **GENERAL POLICY ON DATA PAPERS, PROPOSALS, AND DISSERTATIONS FOR SUBMISSION TO FACULTY COMMITTEES**

Archaeology faculty are instituting policy guidelines for the (1) timing of submission of data papers, dissertation proposals, and dissertations to committees, and (2) expectations for revisions of these documents. The policy is meant as both a revision and clarification of current faculty expectations regarding timing of document submission to faculty committees and student-based revisions to these documents.

As a general rule, data papers, proposals, and dissertations should be submitted to faculty advisors and committees **during the academic year** (Fall, Winter, and Spring quarters). Faculty will not process these documents during the summer quarter. Please note that this includes scheduling the proposal defense for advancing to candidacy, which should be also scheduled during the formal academic year (Fall, Winter, and Spring quarters).

More specific expectations are detailed below for (1) data papers and proposals, and (2) dissertations.

- (1) Timeline for Submission & Revisions for Data Papers and Dissertation Proposals (please note that this timeline represents a **minimum** process of reading/revision of **2 months**)
  - a. Submission of completed data paper and/or proposal to advisor = advisor has a minimum of 2 weeks to read and comment on each document
  - b. Revisions of data paper/proposal based on Advisor comments = students should expect the revisions to take a minimum of 2 weeks for each document
  - c. Submission of completed data paper/proposal to committee, after revisions made based on advisor's comments = committee members have a minimum of 2 weeks to read and comment on each document
  - d. Additional revisions based on committee comments = students should expect the revisions to take a minimum of 2 weeks for each document

Please note that revisions could potentially require more than 2 weeks work, and adjust your timeline accordingly.

Be aware that the process of initial submission of the data paper and proposal to advancing to candidacy **will each take a minimum of 2 months**, and adjust your timeline accordingly.

- (2) Timeline for Submission & Revisions for Dissertations (please note that this timeline represents a **minimum** process of reading/revision of **4 months**)
- a. Submission of completed dissertation to advisor = advisor has a minimum of 1 month to read and comment
  - b. Revisions of dissertation based on Advisor comments = students should expect the revisions to take a minimum of 1 month
  - c. Submission of completed dissertation to committee, after revisions made based on advisor's comments = committee members have a minimum of 1 month to read and comment
  - d. Additional revisions based on Committee comments = students should expect the revisions to take a minimum of 1 month

Please note that revisions could potentially require more than a month's work, and adjust your timeline accordingly.

Be aware that the process of initial submission to filing the dissertation **will take a minimum of 4 months**, and adjust your timeline accordingly.

## ARCHAEOLOGY RESEARCH PAPER GUIDELINES

The Ph.D. program in archaeology requires completion of a substantial research paper that reports the quantified analysis of a set of primary archaeological data. The graduate student research paper requirement is based on an *American Antiquity* publication model, and it is this model that is used to dictate the form, content, and evaluation of the papers.

### I. Purpose of the Paper

- A. To provide a context within which the student can acquire experience in professional research and writing.
- B. To foster a close working relationship between the student and archaeology faculty members.
- C. To stimulate and guide the student in writing a carefully prepared paper that could potentially be published.
- D. To permit the student to demonstrate professional research abilities, including problem formulation, analysis, and exposition.

### II. Content of the Paper

- A. The paper must present a piece of original research; it may not be mainly a survey of literature on a topic or a critique of another analysis (although in treating the research topic, the paper may include these elements).

- B. This paper must take the form of a report on an original analysis of archaeological materials that is directed to the understanding of a specific research topic. The data used in the analysis should be in quantified form and a quantitative argument should be presented.
1. These data may result from the student's laboratory analysis of collections or the data may come from published or unpublished sources (e.g., the data analyzed might be a spatial distribution of sites in an area; or the frequencies of faunal remains from a site).
  2. The paper should be directly related to the student's regional or theoretical/methodological interests, or both. The data should ideally come from the student's region of interest, but this is not required. The student is not expected to have participated in the fieldwork that collected the primary data.
- C. If possible, a paper should be written that could be submitted for publication in an anthropological journal.
1. Attention to this point is critical in preparing the paper. An article, not a thesis, is what is required. Thus, the paper should achieve a balance of the different sections of the paper (e.g., background information, problem statement, description of the data, laboratory, and analytical procedures) that is appropriate to an article presentation. This is in contrast to a thesis presentation, where more detail in the background and descriptive sections ordinarily would be expected.
  2. There are many national and regional journals, for instance, that might publish the research paper (for example, *American Antiquity*, *Journal of Field Archaeology*, *Journal of Anthropological Science*, *North American Archaeologist*, *Journal of California and Great Basin Anthropology*, *Kiva*, or *Plains Anthropologist*).

### III. Selection and Approval of the Research Topic and Preparation for the Paper

- A. The identification of a problem and the development of relevant data are among the most difficult jobs the student faces in preparing the paper. The student should seek advice from the faculty in this regard.
1. It is necessary to identify a research topic that can be addressed in a paper of this scope, and to locate a data set that can, with a reasonable investment of analytical effort, yield information relevant to the topic.
  2. In order to meet the deadlines set out, it is expected that by the fourth quarter of residence, a student will begin to work on identifying the paper topic and relevant data.
- B. The student has considerable latitude in selecting a paper topic; however, the topic must be approved by the student's committee.

- C. Anthropology 245A, Quantitative Applications in Archaeology, will provide the analytical skills necessary for the paper.
- D. The student may enroll in up to eight units of Anthropology 598 in order to finish writing the paper.

#### IV. Relationship to Graduate Course Papers

- A. In many cases, the research paper may originate as a paper prepared for a graduate course or directed reading course under the sponsorship of a faculty member.
- B. However, a paper that is sufficient for a seminar may need expansion of scope or some other modification before it can fulfill the requirement of the research paper.
- C. The paper may also originate with work begun before coming to UCSB.

#### VI. Format of Papers

- A. While there is no minimum or maximum page length, the scope of each paper should be such that its length falls within the range of standard journal articles. (Usually less than 40 double spaced pages of text, exclusive of figures, tables, and bibliography.)
- B. Final form for a paper is defined to be the form in which a professional paper would be submitted to a journal for review, i.e., it must be a complete, clean, double-spaced, fully-edited typescript that includes an abstract, complete bibliography, and final figures and tables.
  - 1. The format, including that of the bibliography, should follow that used by *American Antiquity*. (Consult the most recent style guide on the journal's website.)
  - 2. The paper should be carefully written, with special attention given to style as well as to spelling, punctuation, and grammar. Avoid the use of unnecessary jargon, but do not be afraid to use new terminology if it is appropriate.
  - 3. The *Chicago Manual of Style* should be used as a guide in writing the paper.

#### VI. Review of Paper Drafts

- A. A student may request that one or more faculty members review a draft of the paper prior to any deadline.
- B. The student should allow at least two weeks for such a preliminary review.
- C. Students are strongly urged to avail themselves of this opportunity for review of a draft.
- D. The student must not use this preliminary faculty review of a paper as a substitute for

careful editing and proofreading. Faculty members will return poorly edited or proofread papers without review.

VII. Evaluation of Papers

- A. Papers must have a content and organization appropriate for a journal article. They must be of professional quality, of article length, and of course, must be in final form. Papers that do not satisfy these criteria will be rejected. A paper that has been accepted for publication will not necessarily be acceptable to the faculty review committee.
- B. The final version of the dissertation proposal must be reviewed and accepted by all members of the student's M.A. committee.
